

Case Study

BACKGROUND

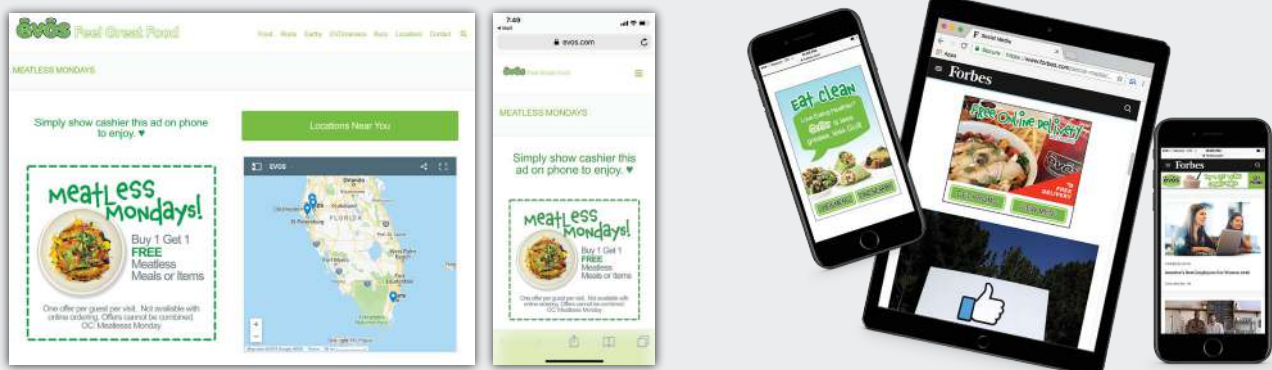

EVOS Restaurants, a fast-casual healthy dining chain, turned to ShopAdvisor to help increase its business at four existing locations in the greater Tampa and Miami, FL area. EVOS wanted to leverage ShopAdvisor's mobile marketing solution to attract their ideal diners on their mobile devices with enticing offers of their most popular meal combinations. EVOS also wanted to take advantage of their annual Earth Day promotion as well as various other offers to attract diners looking for healthy meal choices amongst the other QSR and Fast Casual chains. Also, while EVOS is an established healthy eating destination in the Tampa area, their new Miami location did not have the same notoriety as other restaurants in the area, so they knew they needed to try something different to make a breakthrough.
